Rev. J. J. Winger, of the Methodist Episcopal Church, is doing missionary work in the country surrounding Prescott, and speaks in the highest praise of those people living in Skull and Williamson Valley and the Verde. He is a gentleman of ability and zealous in the cause of Christianity.

The examination of the Eary brothers and Doc. Holliday still goes on at Tombstone. The more we read of the testimony the more it looks to us like a cold blooded wholesale murder of the McLowry brothers, and Mr. Clanton.

Lieutenant Clark has been relieved from command of Indian scouts and will take station at Bowie, where Lieutenant Blackson has been assigned to the command of said scouts. Captain Hubbard, recently stationed at the terminus of the A. & P. Railroad, has been ordered to Camp Huachuca.

It is an easy thing in Tombstone to get up local news. The Epitaph tells its readers how enterprising it is, and how far behind the times the Nugget stands, and how the Nugget tells it readers the same without tale about the Epitaph, all of which is good, interesting reading, daily.

Mr. R. C. Brown, of the Tucson Citizen, arrived in Prescott to-day. We extend to him a welcome to Prescott, the finest city in Arizona, but we protest against the gentleman taking headquarters upon his shoulders and packing them down to the Santa Cruz.

We called at the Boston and New York Store and inquired for the old gent. We were informed that he had been absent in Boston for three weeks. We may expect soon to see the new goods coming into Bray & Co's store by the wholesale. They will be fresh and cheap.

We ask the patrons of the Miner to read what Mr. Geo. H. Curry has in this paper in the shape of an advertisement. He is entirely too mild. His stock is a thousand per cent better than he describes it. A perusal is necessary for the purpose of fully appreciating his goods.

In the criminal case of the Territory vs. Nathan which was submitted to the jury on the morning of the 15th, said jury after remaining out for 15 hours were discharged, not being able to decide upon a verdict. We hear of a grand scheme on foot by a certain Territorial official to put worthless stock on the eastern market in connection with a cattle range, where 100,000 head of cows, calves etc., can be kept, all within 18 miles of Prescott. Does it look like a swindle, and something that will injure honest undertakings in this section? We will sight it out, and ventilate the swindle, and don't forget it. No such highway robbery should be countenanced. We have many properties of merit that we can't afford to have ruined by visionary adventures.

DEPARTURES. — J. F. Blandy, Frank Dole and R. C. Brown were passengers out to-day.

The Tucson papers should be a little careful when they mention the country press. (Give us a city and has all the metropolitan shades, shadow and varieties of things and people.

Our old friend and former fellow citizen, Wm. J. Berry, has hung out his shingle in Tucson and is now one of the attorneys and counselors at law in the honorable and ancient public.

We hear that some miscreant last night coal-oiled the dwelling house of F. W. Williams with intent on incendiaryism. The coal oil was smelt and an examination found the house saturated on one side.

Hon. Pat Hamilton received to-day per train about 6,000 copies of the Resources of Arizona. The remainder of these books will be received in a day or two, when he will commence distributing them according to the act authorizing the compilation, etc.

A. J. Mason deserves great credit for the magnificent store he has built up in our city. No man needing harness saddles, boots shoes or anything in his line, should think of sending away for the same. Patronize home industry.

The following persons compose the jury in the Nathan case now on trial, R. Stringfield, H. A. Marsh, F. G. Parker, W. H. Smith, J. W. Baker, W. H. Williams, A. Burnister, L. Pearce, N. C. Shekels, Chas. Taylor, J. E. Brown, and J. T. Shull.

Business of all kinds is on the increase in Northern Arizona, and no man need complain of dull times or that work cannot be found. There are mines to open, quartz mills to operate, a big railroad to build, houses to erect, and to haul, and best of all, pretty girls to court, who will make good wives and home happy.

J. L. Hall, of the Tragic Market, regaled the Miner force to-day on Bologna, lager beer and the etcetera. He makes a specialty of this kind of business, therefore we may expect him around again any day. His market is loaded down with all the specialties and he so advertises. Call on the proprietors of the Tragic shop and we will insure you good treatment.

Hon. Gideon Brooks.

The remains of this good man were laid away in their last resting place to-day beside those of his old partner in business, Jacob Lynn, who preceded him to the home of man beyond the stars. Rev. J. J. Winger officiated at the burial. Gideon Brooks was born at Washington, D. C., in 1819, consequently at the time of his death had attained to the age of 62. He was an old Californian, and came to Arizona in 1863 with the first pioneers who crossed the Colorado river. He resided on Lynx Creek five years, where he was engaged in placer mining. In 1868 he came to Prescott, and commenced business at the Plaza stable, from which place the procession formed this afternoon and marched to the cemetery and paid a parting to a good citizen and an honest man. He was a member of the Eighth Legislature, and made a good record by always casting his vote in the right direction. He served this, his country, several terms as County Commissioner, and in all his acts, public and private, received the hearty approbation of the public. He was truthfully an honest, upright man, and a gentleman in the full sense of that term, and was universally respected. Requiescat in pace.

Mining Notes.

Doctor Farnham who represents the Yavapai mill, and Mining Company returned from a visit to some of the properties belonging to the company yesterday. He furnishes us the following particulars.

On the Yavapai flat there is a tunnel in 200 feet with a vein 12 feet wide, containing 6 feet of very high grade ore. At the distance of 200 feet, the ledge is 100 feet or more beneath the surface. They are now drifting south, and will soon cut the ledge to ascertain its correct width. An other property belonging to this company is the Wadleigh, containing gold, samples of which exhibited to our view was perfectly permeated with bright particles of the precious metal. The Yavapai M. & M. Co., should erect their mill at once, and get to the dividend mark. Mines in idleness are of little value to their owners or the country.

Another Man Shot.

At Pittman Flat in this county, on Sunday last a dispute arose between a man named McGuire and Sam Ball, the pioneer of that section about a certain tract or piece of land. McGuire, we hear was about to appropriate the land to his own use, and was in the act of fencing the same when Mr. Ball remonstrated and forbid him trespassing further. McGuire, we hear, drew a pistol and Ball a Winchester rifle. McGuire made an effort to capture Ball's rifle when it went off inflicting a serious wound in McGuire's groin. So it goes; a man for breakfast, dinner, and supper every day on the line of the A. & P. R. R. Mr. Ball came into Prescott, and delivered himself into the hands of the authorities for examination.

No Financiers.

Hens are certainly numsculls and know nothing about finance. When hen fruit is selling at 3 cents each the hen will find the most industrious bird in the face of earth, but just let an egg come up to 12 cents, as is the case in Prescott at present, and you may coax and play all sorts of possum tricks on the stubborn hen, and nothing will induce her to hurry up her manufacturing machinery. There is no such thing as making them calculate on holidays, and the amount of money that can be realized on their willingness to produce. They care nothing for emergencies or the condition of their owners pockets.

Mr. Adams will attend to all official business of auditor Clark, during his absence from the Territory. n14-w.
